Kids and domestic violence: an early intervention project Intimate partner violence (IPV) can have a profound impact on the children. This book, Intervention, and Prevention Strategies for Children and Adolescents, offers a comprehensive approach to addressing IPV and its effects. It emphasizes the need for routine screening for domestic violence as part of the child welfare system. Additionally, the book discusses strategies for intervention, and prevention, with a focus on providing effective care. The main focus of the book is on proven assessment, intervention, and prevention strategies. It recognizes the impact of intimate partner violence (IPV) on children and youth and its long-term effects. The authors, Peter Jaffe, David A. Wolfe, and Marcie Campbell, acknowledge the need for a growing understanding of IPV on children and youth, and the importance of providing comprehensive resources. This book is a valuable resource for practitioners working with children and families affected by IPV.
